PROFILE

Innovative and forward-thinking B.Tech Computer Science and Engineering student at Adamas University, passionate about leveraging technology to solve real-world problems. Interests include Artificial Intelligence, Machine Learning, Data Science, Quantum Computing, Edge Computing, Quantum Physics, UI/UX Design, and full-stack development.

EDUCATION

Adamas University

Bachelor of Computer Science & Engineering (8.705 CGPA)

Kolkata, West Bengal, India

2023 – 2027

TECHNICAL SKILLS

Programming: Python, JavaScript, TypeScript, C, C++, SQL, HTML, CSS

AI / ML: Machine Learning, Generative AI, NLP, Computer Vision, LLMs

Frameworks & Tools: React, FastAPI, Vite, Tailwind CSS, Node.js

Databases & Data: MongoDB, PostgreSQL, Pandas

Cloud & Development: AWS, Git, GitHub, Vercel

LANGUAGES

Bengali: Native | **Hindi:** Fluent | **English:** Proficient

PROFESSIONAL DEVELOPMENT

The Developers Arena

Virtual Software Engineering Intern

June 2025 – December 2025

Remote

- Completed a six-month virtual internship program focused on software development and practical engineering experience.

AWS Virtual Technical Courses

Cloud, Data, ML, NLP & GenAI

January 2026 – March 2026

Virtual

- Completed virtual technical courses covering Cloud Data, Data Pipelines, Machine Learning, Natural Language Processing, and Generative AI.

SSWC'2025 – JIS University

Research Paper Presenter

November 2025

West Bengal, India

- Presented the research paper “ML-Based Price Prediction for Agri-Horticultural Commodities” at the 2nd International Conference on Smart Systems & Wireless Communication.

HACKATHONS & OPEN SOURCE

Participated in **Smart India Hackathon (SIH) 2024, 2025 & 2026**, OSSDC Code for Change, and various online hackathons through Unstop, DevFest and Hack2Skill.

Achieved **Rank 3** in Nexus Summer of Code (NSoC), **Rank 1** in ELU Summer of Code (ELUSoC), **Rank 10** in GirlScript Summer of Code (GSSoC), and **Rank 6** in Elite Coders Summer of Code (ECSoC).

PROJECTS

AI-Data-Analysis | Python, JavaScript, DuckDB, Groq

July 2026 to Present

- Built a conversational data-analysis platform that allows users to analyze CSV, Excel, SQLite, and SQL dump files using plain English without requiring SQL knowledge.
- Implemented secure read-only DuckDB query execution, data visualization, AI-powered analysis using Llama 3.3 70B via Groq, and a full SQL editor.

EduPilot-AI | TypeScript, Python, MongoDB

August 2026 to September 2026

- Developed an intelligent academic operational layer designed for higher education institutions and tailored for Adamas University.

EchoMind | *Core Python, Google Gemini, Groq*

December 2025 to March 2026

- Built an AI-powered terminal voice assistant that listens to spoken commands, routes them to focused handler modules, and uses Google Gemini and Groq for AI-powered responses.

AquaWatch | *TypeScript, Python, JavaScript*

September 2025 to October 2025

- Developed a comprehensive web application for real-time monitoring and analysis of India's water crisis across states and union territories.
- Provided insights into groundwater depletion, water availability, and population impact through an intuitive monitoring dashboard.

CargoConnect | *JavaScript, HTML, TypeScript*

June 2025 to February 2026

- Developed a user-friendly web application designed to help users book suitable vehicles for transferring heavy luggage between locations with ease and reliability.

ACHIEVEMENTS & CERTIFICATIONS

Best Paper Award – SSWC'2025: Recognized among 50+ papers for presenting research on “*ML-Based Price Prediction for Agri-Horticultural Commodities*” at the 2nd International Conference on Smart Systems & Wireless Communication, issued by JIS University.

Merit Scholarship – Adamas University: Received the Merit Scholarship Award 2023 in recognition of academic excellence and consistent performance.

CORE STRENGTHS

Problem Solving & Decision Making | Adaptability & Quick Learning | Team Collaboration & Leadership
Creative & Innovative Mindset | Time Management & Focus
